

ICECREAM

International Conference on Engineering, Construction,
Renewable Energy, and Advanced Materials

Designing Sustainable Technologies Towards Resilient Future

Keynote Speaker :

Prof. Ir. Dr. Haji Nik Mohd
Zuki Bin Nik Mohamed

Dean of the College of Engineering
Universiti Malaysia Pahang

Efraim Mayer

Digital Industries Siemens Indonesia

Prof. Arq. Oscar Bragos, PhD.

Rosario National University, Argentina

Prof. Muhammad Aziz, Dr.Eng

University of Tokyo, Japan

Will Be Held On :

02 November 2022, Zoom

Topic :

Civil Engineering

Structure Engineering, Construction Management
Engineering Hydro Engineering, Transportation Engineering,
Geotechnical Civil Engineering, Dispute Resolution And Claim
Contract, Construction Infrastructure.

Chemical Engineering

Nanotechnology, Chemical reaction engineering
Polymer technology, Kinetics and Catalysis Waste and Water
Treatment, Thermodynamic Oleochemical Technology, Modeling,
Simulation, and Process Optimization, Separation and
Purification Unit, Petroleum, gas and coal technology.

Architecture

Architectural History and Conservation, Urban Planning and
Settlement, Smart Building and City, Green Architecture and
Sustainability, Architectural Theory and Critics.

Informatics Engineering

Artificial Intelligence and Machine Learning, Cloud Computing
Network Security, Computer Vision, Image Processing
Mobile Computing, Internet of Thing (IoT), Pervasive
Computing, Big Data.

Electrical Engineering

ENERGY : Electric Power System; Power, Electronics;
Renewable energy, Energi Management; Energy and
Industry Applications; Engineered Materials, Dielectrics
and Plasmas; Energy and Industry Applications, Driver
Technology, TELECOMMUNICATION : Computer Network,
Multimedia Communication, Computer Engineering, Wireless
Communication System, Optical Communication, Networking
and Broadcast Technologies, ELECTRONIC : Automation
System, Biomedic, Bioengineering Instrumentation System,
Artificial Intelligence, Optical Electronics, Control System,
Robotics and Control Systems; Photonics and Electrooptics.

Mechanical Engineering

Energy Conversion, Construction of Product Material
Manufacture System and Ergonomy, Advance Material.

Industrial Engineering

Quality Engineering, Operation Management, Productivity
Manufacturing System, Supply Chain Management
Product Design & Development, Ergonomic Modeling &
Simulation, And others related topics which related to
Industrial Engineering BoK (Body of Knowledge).

Relevant Science & Technology

Registration :
<https://icecream.umj.ac.id/>

Registration Fee :

Until 01 October 2022, Early Bird:

Author		Participant	
Student	: 400.000 IDR	Student	: 150.000 IDR
UMJ Lecturer	: 600.000 IDR	UMJ Lecturer	: 200.000 IDR
General / Public	: 800.000 IDR	General / Public	: 250.000 IDR
International	: 80 USD	International	: 25 USD

Until 02 November 2022 Regular:

Author		Participant	
Student	: 600.000 IDR	Student	: 200.000 IDR
UMJ Lecturer	: 800.000 IDR	UMJ Lecturer	: 300.000 IDR
General / Public	: 1.000.000 IDR	General / Public	: 400.000 IDR
		International	: 40 USD

Important Dates :

Phase 1

Registration (Full Paper) : 26 Sept 2022
Revision Collection : 07 October 2022

Phase 2

Registration (Full Paper) : 10 October 2022
Revision Collection : 21 October 2022
